NEW ENROLMENT-BASED MEASURE OF NCEA ATTAINMENT

NZQA and the Ministry of Education have implemented a change to the way NCEA and University Entrance attainment is reported.

The new enrolment-based measure of NCEA attainment will replace NZQA's roll - based and participation-based measures. It provides a more precise picture of attainment. It counts all domestic students in years 11 to 13 aged less than 19 on 1 January, rather than taking a snapshot of students as at 1 July. It also counts up to three ethnicities students identify with, rather than limiting this to just one.

As a result, NZQA advises that most schools will see a change in their attainment rates. It is a statistical adjustment that doesn't reflect school performance, teaching practice or an individual student's results. Also, whilst NCEA and University Entrance attainment rates do change for most schools, the amount of improvement in student attainment over time is similar and positive using the enrolment-based measure.

NZQA has consulted with schools on the way attainment is reported at a school level. The enrolment-based measure will be used for reporting NCEA and University Entrance attainment statistics from January 2019.

More information can be found on the NZQA website:

<https://www.nzqa.govt.nz/studying-in-new-zealand/secondary-school-and-ncea/find-information-about-a-school/secondary-school-statistics/>

MAORI PERFORMING ARTS:

A reminder to parents of Year 9 and 10 students that perform Kapa Haka they are able to do NCEA Levels 1, 2, and 3 Maori Performing Arts unit standards next year.

PARENT & STUDENT PORTAL YEAR 9 - 13

The Kamar Parent & Student Portal is available to all parents for students in Year 9 - Year 13. The following information is currently available - notices, calendar, student timetables, live attendance, pastoral notes, recognition's (C.A.R.E points), student reports, students results, and student pathways.

Please note: Student information is not publicly available and has only been shared with students and parents/caregivers who each have their own unique password. Please, keep your password confidential.

If you have lost your username and password please contact the school office and request a copy.

SUMMER READING CHALLENGE

Kia ora,

As you will be aware it is really important to encourage continued reading over the summer break.

Kaikohe Library invites you to join us in promoting this year's Summer Reading Challenge - a Kaikohe Library reading initiative.

Children are encouraged to sign up, collect a log book, choose and read (at least) six books over the three summer months – receiving rewards and support from the library along the way. All who complete the challenge go in to win a \$50 Warehouse voucher.

Our teen readers will each go in to win a \$50 Warehouse voucher for every book review they submit.

Staff will be on hand with book lists and Bingo sheets to encourage and inspire book choices.

The aim is to make the most of this interactive programme to build literacy and inspire a love of reading in our tamariki.

If you would like a log book please see your school office.

Keep an eye out for our e-news and library survey. We would really appreciate your input and suggestions for our up and coming library re-vamp!

Nga mihi

Meningococcal W Vaccination Programme - Northland

There is a community outbreak of meningococcal W disease in Northland. We need to vaccinate people who are most likely to carry the disease and infect others, which will help to prevent the spread and manage this outbreak.

The Ministry of Health and the Northland DHB have been working closely together once the community outbreak was identified in mid-November to identify the best response. Action has been taken immediately once a decision to undertake an outbreak vaccination response was made.

Before now, cases have been sporadic and have been dealt with on an individual case-by-case basis with antibiotics to the affected individual and their close contacts.

Northland DHB will be undertaking a vaccination programme for children aged from **9 months to under 5 years and those aged 13 to under 20 years and who are Northland domiciled residents.**

We are targeting children under 5 because this is the population that is generally most affected by meningococcal disease. As a result, vaccinating this age group will protect them from getting meningococcal disease. However, the vaccine cannot be given to babies under 9 months.

We're targeting 13 to under 20-year-olds because this is the age group that carries the bacterium that causes the disease in their throats – they are carriers. This means that even if they have no symptoms, carriers can infect those around them. Vaccinating this age group will lower the number of carriers in a population and stop the spread of meningococcal disease across the entire community. In other words, vaccinating this age group will protect the whole population.

Northland will have a regional communications campaign via newspaper, social media and radio to ensure that those who are eligible for vaccination, and their caregivers, are aware of the programme, and where they can get vaccinated.

The Ministry has advised us that vaccine stocks are limited, both nationally and internationally. Therefore we have been instructed by the Ministry to start vaccinating those most at risk from the disease and also those most likely to carry the disease and infect others. There is a global shortage of the vaccine due to larger outbreaks overseas. New Zealand has purchased the 20,000 doses that are available immediately to start the vaccination campaign.

The vaccine programme will start in early December. The focus of the campaign is to stop the spread throughout the Northland region and is timely in this regard.

The timing this close to Christmas and school holidays makes the logistics challenging but the Northland DHB and Ministry did not want to wait until the New Year to commence the vaccination campaign.

The logistics of the campaign have yet to be finalised by Northland DHB, but will likely occur via community clinics throughout Northland – the venues are in the process of being confirmed and will be published in media, on radio and also on the Northland DHB website. www.northlanddhb.org.nz

We urge parents/caregivers to monitor the media information that will come out in the next week around venues for the programme in order that your child/children can be vaccinated.
