

Tena koutou whanau ma

After carefully considering how we can successfully manage education off site (at camp) under Level 2 conditions, we have decided that Camp organisers are able to proceed. The planned camp at Waitangi for Kaikohe Campus students and staff is going ahead with modified health and safety procedures in place. Our primary concern is 1) managing risk and 2) responding to events. We are confident our staff and whanau are able to plan for and manage both scenarios and look forward to an exciting and enjoyable camp for our rangatahi.

Nga mihi mahana

David Rogers
